## NIT Rourkela 8<sup>th</sup> in nation-wide engineering college survey

NIT Rourkela has been ranked eighth in a nation-wide engineering college EDU-RAND survey. The ranking were conducted by pick-a-college.com wherein 850 engineering institutions that that were founded in 2009 or earlier and annually enroll at least 200 students in their engineering programmes were surveyed. According to the surveyor, the EDU-RAND ranking relied on objective measurements, not on surveys of perceptions of quality. The EDU-RAND ranking are intended to guide students seeking admissions to an engineering colleges or university.

In a press note released to media RK Sinha, Secretary, Public relation committee of NIT, Rourkela said that the institute has been continuously making rapid progress in all round development apart from academic credentials and is becoming more visible and preferred destination for higher education among the aspiring students.

## Ebola Virus - a health issue...

The Ebola virus disease (EVD), formerly known as Ebola hemorrhagic fever is a severe condition caused by a virus from the *Filoviridae* family. Known to be a condition that is transmitted from animals to humans, this virus spreads through direct contact with the bodily fluids of an infected person or animal.

### How is it diagnosed?

Usually a doctor will be able to diagnose the condition with the symptoms alone, but in order to confirm the diagnosis he/she may prescribe tests like CBC (Complete Blood Count), coagulation studies (a test to check for the amount of time a person's blood needs to clot), viral antigen testing (a test to check for the presence of the viral antigen) and a liver function test.
