About NIT Rourkela:

National Institute of Technology Rourkela (NITR) is a premier institute in India for higher educationbasic and applied research. NIT Rourkela is now recognized as an institute of national importance by government of India. The institute has twenty department and five multidisciplinary centers that offer undergraduate, postgraduate and research courses leading to B.Tech., M.Tech., M.Sc., M.B.A., and Ph.D. degrees. NITR spread over 647acres carpeted by a lush green cover, the campus is situated right at the conjugation of the hills of Rourkela in the eastern part of India.

## About Biju Patnaik Central Library:

The Biju Patnaik Central Library is the central library of the National Institute of Technology Rourkela. Biju Patnaik, a great social reformer has set up **Regional Engineering College, Rourkela**. BPCL has started functioning since 1965. At present, the library holds about 75,000+ books and 18,000 back volumes of periodicals. Apart from the online journals and standards provided by INDEST-AICTE consortium, the library has purchased license to access more than 2000 online science and technology research journals to support local research activity. Prior to that, the BPCL has many ISI codes, educational video course &cassettesand CD-ROMSetc. The Biju Patnaik Central Library has been modernized to provide computerized services to NITR academic community at large. The BPCL is automated with RFID technologies and using DSpace, E-print, Koha, Joomla and other open source solution for various services.

ELPES Workshop June 6-10 2016

EMPOWERING LIBRARY PROFESSIONALS TO EMPOWER SOCIETY SERIES - 4

National Workshop on Building Institutional Repository and Website/blog: DSpace and WordPress

June 6-10, 2016

DSPACE WordPress

About Workshop:

This workshop is to provide hands-on training to library professionals by providing adequate practical knowledge which will enable to develop digital repositories of library materials and develop website/blog on their own by using DSpace and Wordpress respectively.The workshop also aims to provide basic knowledge and skills to participants in customizing DSpace as per local requirments.

About DSpace:

DSpace is an open source repository software package typically used for creating open access repositories for scholarlyand/or published digital content. While DSpace shares some feature overlap with content management systems and document management systems, the DSpace repository software serves a specific need as a digital archives system, focused on the long-term storage, access and preservation of digital content. The first public version of DSpace was released in November 2002, as a joint effort between developers from MIT and HP Labs. Following the first user group meeting in March 2004, a group of interested institutions formed the DSpace Federation, which determined the governance of future software development by adopting the Apache Foundation's community development model as well establishing the DSpace Committer Group. In July 2007 as the DSpace user community grew larger, HP and MIT jointly formed the DSpace Foundation, a not-for-profit organization that provided leadership and support. In May 2009collaboration on related projects and growing synergies between the DSpace Foundation and the Fedora Commons organization led to the joining of the two organizations to pursue their common mission in a not-for-profit called DuraSpace. Currently the DSpace software and user community receives leadership and guidance from DuraSpace.

About WordPress:

WordPress was born out of a desire for an elegant, well-architectured personal publishing system built on PHP and MySQL and licensed under the GPLv2 (or later). It is the official successor of b2/cafelog. WordPress is fresh software, but its roots and development go back to 2001. It is a mature and stable product. WordPress started as just a blogging system, but has evolved to be used as full content management system and so much more through the thousands of plugins and widgets and themes, WordPress is limited only by your imagination.

Target Audience:

Workshop is intended for Library and Information Science Professionals and LIS students. Registration is limited to 30 participants.

Registration Fee :

Rs 2000/- per participants which includes workshop Kit and Lunch.Demand Draft should be in favor of "ELPES-4, NIT Rourkela"payable at SBI, NIT Branch, Rourkela –769008 (Branch Code: 2109) must reach the chairman on or before May 15, 2016.**OR** You may directly transfer the amount in SBI A/C No. 35653938013 (IFSC code: SBIN0002109)
