About the Event

To increase the awareness and use of the most trusted and widely used A&I Database, the Web of Science™, BPCL in association with Clarivate Analytics is conducting an User Awareness Workshop on Web of Science™ and EndNote as per the following agenda:

Purpose of the Session:

a. It will encourage the optimum usage of the e-Resources like Web of Science™ and EndNote available to the end-users.

b. It will enable the researchers to use the platform in a more effective manner in their research workflow.

What is cover in the session:

With the intention to familiarize everyone with the 2 platforms, we will phase out the session as follows:

a. A short presentation explaining the basis and the need for the platform.

b. A detailed live demo explaining the various features of the platform and how it can be used by researchers using live examples.

Details of what we plan to cover in the live Demo:

For Web of Science:

• Citation analysis and reports, h-Index of authors & institutions

• Analysis of search results to find Top authors, journals, institutions, publications etc.

• Research output and impact on overall h-Index

• Impact Factor and its significance in research

• Various search methods and refine search options

• Tools available for disambiguation of authors and institutions

• Analyze and find the co-authors, access collaborations and find suitable funding agencies based on research area

For EndNote:

• Various methods of building a library in EndNote

• Ways of finding the best-fit /most suitable journal for a manuscript ready for publishing

• Creating various types of Groups and assigning/sharing references

• Adding annotations/notes and highlighting in full-text

• Writing citations & references using the 'Cite-while-you-write' feature

The meeting/session will be on "Microsoft Teams". The participants need to download Microsoft Teams application on their phones/laptops if they don't have it already and register or use their existing Microsoft email address
