

National Workshop on Library Automation (Koha), Application of RFID and Reference Management Tool (Zotero)

**December
05-09, 2016**

Organized by

Biju Patnaik Central Library
National Institute of Technology
Rourkela, Odisha – 769008
<http://library.nitrkl.ac.in>
0661-2462101

The basic purpose of this workshop is to strengthen the library professionals technically so as to meet the new challenges in the field of library automation, applications of RFID and using reference management tools. The content of this workshop is designed in such a way that a professional who does not know anything about library automation, RFID and reference management tools will be able to automate his/her library and use RFID/Zotero with the help of material provided, discussion & hands-on session during workshop. This workshop will mainly discuss about Koha, RFID devices and Zotero.

Objectives:

- To create awareness among professionals about open source technology & its application in library
- To make the library professionals technically sound so as to automate their library independently without any support
- To enable the library & information professionals to face the technological challenges such as data migration, multi-branch handling, installation, RFID device handling, Zotero etc.

This workshop will cover the Tutorial, Hands-on Session & Demonstration of different topics:

- Open Source System & Why Open Source System?
- Koha & its different modules such as Acquisition, Cataloguing, Circulation, Serial Control & OPAC
- Koha Self Video Tutorial covering details about all the modules available in the Koha
- Step-by-step PDF manual on “How to implement Koha?”
- Customization of Koha Online Public Access Catalogue
- Detailed discussion on Cataloguing MARC-21 framework
- Handling of Multi Libraries & Branch Libraries with Koha in the same server
- Notices to Patron by e-mail
- RFID devices
- Challenges in implementation of RFID technology in libraries
- Reference management tools
- Training on Zotero

Important Dates:

Last Date of Registration : November 25, 2016
Workshop Dates : December 05-09, 2016

Emergency Contacts:

Dr. Bhojaraju Gunjal : 09040511891
Mr. V. K. Mishra : 09439420860

Target Audience:

Workshop is intended for Library & Information Science Professionals, Researchers & LIS Students. Registration is limited to 30 participants on first come first serve basis.

How to Reach Rourkela?

Rourkela is well connected by train routes with all parts of the country. It is situated on Howrah-Mumbai line as well as Ranchi-Bhubaneswar Line.

Rourkela is well connected to various towns of state by State Highway No. 10 and National Highway No. 23. Several buses ply between Rourkela and major cities of the state of state like Bhubaneswar, Puri, and Sambalpur etc.

How to reach NIT? Autos/Taxis are available from Rourkela Railway Station which is situated 7 km away from the NIT Campus.

Note: More details/information can be found at workshop website.

About NIT Rourkela

NIT Rourkela is premier institute in India for higher technical education, basic and applied research. Established more than 50 years ago, NIT Rourkela is now recognized as an Institute of National Importance by Govt. of India. The Institute has more than 20 departments along with many multidisciplinary centers leading to B.Tech, M.Tech, M.Sc., M.B.A., Ph.D., and D.Sc., degree spread across 647 acres carpeted by a lush green cover, the campus of NIT Rourkela is situated right at the conjugation of the hills of Rourkela in the eastern part of India.

About BPCL

Biju Patnaik Central Library is the central library of the NIT Rourkela which caters to the educational and research needs of the academic community and its resources are consulted by scholars from all over the country. BPCL started functioning since 1965 and at present, the library holds about 78,000+ books and 18,000 back volumes of periodicals. Apart from the online journals and standards provided by eShodhSindhu consortium, the library has purchased license to access more than 2000 online science and technology research journals to support local research activity. The BPCL is automated with integrated library software package called Libsys – LSmart and modernized with latest Radio Frequency Identification (RFID) based automation system that facilitates self-check-in, self-check-out and automatic security system. This technology offers fastest, easiest, most efficient way to track, locate and manage library materials. The RFID system counts more than 1.2 lakhs transactions (issue, return and renewal) in a year.
